

The Sustainable Cooperative

Ordering information 23rd March to the 30th March

The Sustainable Cooperative is committed to creating a sustainable supply of food in Jersey. With a vibrant farm shop, an innovative production kitchen and an inclusive cultural and educational programme, we believe in food that protects natural resources for future generations, encourages biodiversity and minimises waste.

The emergence of Covid 19 has made it difficult for many people to go about their daily lives. As an essential service we are committed to providing islanders with good healthy food and household items, while supporting local growers and producers in challenging times. We have decided to offer free delivery to those in need, with the support of a group of wonderful volunteers. We wish you all well and hope that we can be of assistance.

Services we are offering

- Pre-packed groceries for collection at our Farm Shop in St Lawrence.
- Free delivery of groceries and household items to those in need or in isolation.
- A safer and friendly place to shop, with hand washing facilities and social distancing policies.

Orders need to be made by 5pm to ensure delivery or collection the following day, but we encourage you to order as early as possible. Email orders to orders@scoop.org.je

Include your name and telephone number. If we are delivering to you we will also need your address and details of where you would like us to leave your shopping. If you are a member, please include your membership number to receive your 25% discount. All personal information will remain confidential, to be used for the purposes of fulfilling your order.

Please note

We are a small team of dedicated staff trying to make things work in exceptional circumstances. Bear with us as we learn how to service your needs and adapt to the unfolding situation. We may not always be able to match weights exactly, but we will get as close as possible. We may run out of some items if demand is higher than expected. If you would like to order a large quantity of anything, please let us know and we can see what we can do. Orders will come with an invoice and payments will be made by bank transfer.

Specials this week: Local beer and shellfish

We are trying to support local producers that have been severely affected by the measures introduced to tackle COVID-19. This week we have teamed up with Stinky Bay Brewery to offer all those shopping with The Sustainable Cooperative 6 bottles of their Beached Whale and I.P.A. beers for 11.99. You will need to prepay on the Stinky Bay Website: <https://www.stinkybay.com/shop#!/Order-for-delivery-with-a-food-order/c/47107221/>

We are also delivering shellfish for Rock Fisheries. Prices are included in the inventory. To place an order, please contact them directly on rockfisheries@gmail.com. Make a note on your grocery order so that we can bring everything together. They will deliver the seafood to us on Friday morning, for collection or delivery.
